Ecowash Autoshine is a specially formulated blend of detergents, water softeners and shine additives for degreasing and enhancing new and worn rolling stock leaving a streak-free finish.

**ADVANTAGES**

- PH neutral formulation
- Helps to build a water and soil resistant finish
- Not aggressive to sensitive galvanised or aluminium surfaces
- Not detrimental to painted surfaces in accordance with BS3900 G5
- Highly concentrated and economical in use
- Suitable for use in reclaim wash units

**TYPICAL APPLICATIONS**

- Suitable for cleaning locomotives, freight wagons, tankers, trams and underground trains.
- May be used for manual cleaning or via automatic wash plants.

**APPLICATION INSTRUCTIONS**

**Manual cleaning:**
Apply with a brush or pressure washer, allow a short contact time, agitate and rinse with clean water.

**Automated wash plant:**
Use in accordance with manufacturers recommendations.

**Notes:**
For light soiling, Ecowash Autoshine may be used at dilutions of up to 1:100, for heavy soiling use at 1:30.
