BACTERICIDAL HYDROCLEAN is a highly effective cleaner and grease remover containing a broad-spectrum biocide to clean and sanitise surfaces. Bactericidal Hydroclean is non caustic and therefore is ideal for application to sensitive galvanised and aluminium surfaces.

ADVANTAGES

- Highly effective in the removal of food residues and grease.
- Concentrated formula provides excellent dilution rates and low cost in use.
- Contains a broad-spectrum biocide.
- Passes EN 1276.
- Caustic free allowing application to sensitive galvanised surfaces and aluminium.
- Non-perfumed to reduce the risk of tainting food.
- Ideal for food preparation areas and surfaces.

TYPICAL APPLICATIONS

- Bactericidal Hydroclean is ideal for use in food preparation and storage areas to clean floors, walls, food preparation surfaces, machinery and equipment.
- Use also to clean and disinfect surfaces in areas where a high degree of surface sanitation is required, for example in canteens, washrooms, nursing homes, schools, hotels and leisure centres.
- May be used to clean and disinfect refuse bins, waste chutes and gullies.
- Bactericidal Hydroclean will also disinfect and deodorise scrubber dryers and wet vacs.

APPLICATION INSTRUCTIONS

For general purpose cleaning and disinfection the following dilution rates are recommended.

<table>
<thead>
<tr>
<th>SOILING</th>
<th>DILUTION RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light soiling</td>
<td>1:50</td>
</tr>
<tr>
<td>Medium soiling</td>
<td>1:30</td>
</tr>
<tr>
<td>Heavy soiling and grease</td>
<td>1:10</td>
</tr>
</tbody>
</table>
BACTERICIDAL HYDROCLEAN
Biocidal hard surface cleaner

Bactericidal Hydroclean may be applied by high or low-pressure sprayer, mop, swab or cloth. Apply diluted Bactericidal Hydroclean to the surface. Allow to penetrate soiling, agitate stubborn marks where required and rinse with clean water. For optimum surface disinfection a minimum contact time of 5 minutes is required.

HEALTH AND SAFETY, STORAGE AND PRECAUTIONS

Refer to Safety Data Sheet (available on request)

BACTERICIDAL EFFICACY

Tests conducted to EN1276 at a 1:50 dilution rate (5-minute contact) confirm that Bactericidal Hydroclean is effective in controlling the following bacteria:

- Staphylococcus aureus
- Pseudomonas aeruginosa
- Escherichia coli
- Enterococcus hirae

RELATED PRODUCTS

- CHLOROCLEAN
  Specialist chlorinated high alkaline cleaner and sanitiser.

- HR7 COUNTRY FRESH
  Highly concentrated QAC disinfectant with a fresh citrus fragrance.

- UNIVERSAL POWERWASH
  A powerful heavy duty alkaline cleaner and degreaser.

- GERMFREE FAB
  Food area biocidal cleaner and terminal sanitiser.
