CHLOROCLEAN WITH FOAM is a specialist highly alkaline foaming cleaner containing hypochlorite stain. Chloroclean with Foam produces a dense stable foam for enhanced cling and contact time on vertical surfaces providing improved cleaning as well as a visible indication that all surfaces have been covered. High detergency ensures rapid removal of fats, protein, blood and other food residues.

**ADVANTAGES**

- Concentrated high alkaline formula provides rapid breakdown and removal of fats, blood and protein.
- Boosted with hypochlorite and soil suspending agents for stain removal.
- Provides a dense stable clinging foam for improved contact time and enhanced cleaning.
- High levels of detergency ensure exceptional cleaning and emulsification of fats and oils.
- Helps reduce residual odours particularly in fish processing.

**TYPICAL APPLICATIONS**

- Chloroclean with Foam is intended for the removal of fats, blood, protein and food residues in food processing and preparation areas.
- Ideal for application via foam generating systems to equipment, work surfaces, floors and walls.
- Also suitable for manual application.

**APPLICATION INSTRUCTIONS**

1. Apply Chloroclean with Foam at a dilution rate of 1:20 with foaming lance.
2. Starting at the bottom and working up apply to the surface ensuring complete and even coverage.
3. Allow a short contact time to penetrate and lift food and waste residues.
4. Agitate stubborn deposits.
5. Rinse thoroughly with clean water.
